ABOUT ME

I am a motivated student at North West University studying B.Sc. in Information Technology. I specialize in various programming languages, including Python, C#, C, and C++, and I am currently learning C, NodeJs, Golang, and Flutter. I also possess skills in database management and design, project management, and various other technologies in my field.

I love staying up-to-date and learning about up-and-coming technologies, such as AI, and I actively try to utilize them to enhance and strengthen my skills and knowledge in software development and other related fields.

WORK EXPERIENCE

MYSTIC BOER
Potchefstroom
Nov 2021-Present

Technical support

• Configured and optimized all workstations and software applications to enhance operational efficiency.
